The book begins with a brief overview of the history of the Soviet Air Force. It then discusses the development of Soviet fighter aircraft, from the early days of the Cold War to the late 1980s. The book covers all of the major Soviet fighter aircraft, including the MiG-15, MiG-17, MiG-19, MiG-21, MiG-23, MiG-25, MiG-29, and Su-27.

The book also discusses the training of Soviet pilots. Soviet pilots were some of the best in the world, and they underwent a rigorous training

program. The book covers the various training schools that Soviet pilots attended, as well as the different types of training that they received.

The final section of the book covers the combat operations of the Soviet Air Force in various conflicts around the world. The book discusses the Soviet Air Force's role in the Korean War, the Vietnam War, the Arab-Israeli wars, and the Soviet-Afghan War.

Soviet Cold War Fighters is a must-read for anyone interested in the history of the Cold War or the history of aviation. The book is well-researched and well-written, and it is packed with fascinating information and stunning photographs.
