

The Cathedral Church of Saint Paul: An Account of the Old and New Buildings With

The Cathedral Church of Saint Paul is a magnificent building that has stood at the heart of London for centuries. Its history is long and fascinating, and its architecture is stunningly beautiful. This book tells the story of the cathedral, from its earliest beginnings to its present day. It is a must-read for anyone who loves history, architecture, or religion.

The old cathedral building was constructed in the 11th century. It was a large and impressive building, but it was not as grand as the present cathedral. The old cathedral was destroyed in the Great Fire of London in 1666.

After the Great Fire, a new cathedral was built on the site of the old one. The new cathedral was designed by Sir Christopher Wren, one of the greatest architects of all time. Wren's design was a masterpiece of Baroque architecture. The new cathedral was consecrated in 1710.
